

# The pension fund certificate made simple

At first the pension fund certificate seems like a jungle of terms and numbers. But understanding what they're all about is easy once you have some additional information. Simply click on the term or number you want to know more about and you'll get an explanation that's easy to understand.

### Notes

The pension fund certificate is based on the regulations of your pension fund. This certificate replaces all previous versions and was issued by AXA Life Ltd. 8401 Winterthur on the instruction of your pension fund on 18.01.2024.

You will find general information on your pension fund online at www.axa.ch/meine-Pensionskasse.

1 Pension fund certificate The certificate contains information about your occupational benefits insurance, which is also called Pillar 2 or pension fund.

**Valid with effect from**The pension fund certificate is valid as of this date and replaces any older certificate.

**3 Contract no.** This is the number of your employer's affiliation contract.

4 **LWL** The initials of our employee responsible for administering your occupational benefits account.

**5 Beginning of insurance** The date on which your coverage with us began.

**Retirement age reached on** The date on which you reach statutory retirement age.

The effective retirement age may differ from the statutory

retirement age.

**7 Annual salary** Your annual AHV salary as notified by your employer.

8 **Insurance number** The insurance number is the same as your social insurance number (formerly AHV number). Please have it on

hand whenever you contact us.

**9 Pensionable salary** By law, occupational benefits insurance does not cover

the full salary. An amount referred to as the coordination deduction is deducted from the annual AHV salary. The coordination deduction applies to the part of the annual AHV salary that is already insured under Pillar 1 (AHV). See your occupational benefits plan for a precise defini-

tion of salary.

**Development of retirement assets**This section informs you about how your retirement assets developed during the previous year.

11 Retirement assets The amount that has accrued until January 1 of the previ-

ous year. The current value is not to be confused with the

projected retirement capital.

12 Interest This amount equals the credited amount in interest on

your retirement assets in the past year. The diagram be-

low details the composition of the interest.

13 Retirement credit The amount by which your retirement developed during the previous year, without surplus and interest.

14 **Retirement assets**  The total amount in capital you saved in your Pillar 2 account up to January 1 of the new year.

15 **Mandatory portion** 

The Federal Law on Occupational Retirement, Survivors' and Disability Pension Plans (BVG) defines the mandatory occupational benefits. However, depending on the occupational benefits plan, the actual benefit amount paid is often higher. The difference between the higher amount and the minimum BVG amount (mandatory portion) is referred to as extra-mandatory benefits, which can, for example, earn interest at a rate other than the statutory minimum interest rate.

16 Total

The amount from the mandatory portion as defined by the BVG plus the amount from the extra-mandatory portion.

17 **Vested benefits** brought into the fund

Vested benefits refers to the amount insured persons are eligible for when they withdraw from a pension fund. If the person starts a new job, these benefits must be transferred to the new pension fund. This is the amount you saved with another pension fund and that was transferred to our pension fund.

18 **Projected benefits** on retirement

The projected benefits when you retire, broken down by the different retirement ages.

19 Retirement capital / retirement pension

(provisional figures projected with X.XX % interest) Your projected retirement capital and the corresponding annual retirement pension are calculated based on the interest rate shown in point 18 (the rate varies depending on the pension plan / collective foundation). The model and level of the conversion rates are determined by the Board of Trustees. The currently valid con-

## Provisional figures projected ex interest

version rates are shown here.

Your projected retirement capital and the corresponding annual retirement pension without taking future interest into account. These values are for comparison purposes and form the basis for determining the minimum statutory benefits on death and disability.

20 **Disability benefits**  The maximum annual benefits you can expect in the event that you are fully disabled.

21

**Annual disability pension** The annual benefit you receive if you can no longer earn an income because of a disability.

**22** Annual disabled person's child's pension

The maximum you receive per child per year if you can no longer earn an income because you are fully disabled. The pension fund regulations explain the conditions for entitlement to a disabled person's child's pension in more detail.

23 Waiver of contributions If you become occupationally disabled, you no longer have to pay contributions after the waiting period defined in the pension plan ends.

24 Waiting period Disability benefits do not come into effect immediately but only after the waiting period defined in the pension plan ends.

25	* In case of an accident	Information marked with an * refers to disability or death from an illness. If disability or death is the result of an accident, the benefits from your accident insurance are included. In this case, accident insurance benefits take precedence over those from occupational benefits insurance. This can lead to situations where benefits from your occupational benefits plan under legal provisions are reduced to prevent the total amount from exceeding the threshold.
26	Death benefits	This refers to the benefits that fall due in the event of your death.
27	Annual partner's pension	In the event of your death as a married person, the surviving spouse will receive the amount as shown each year.  The same applies for registered partnerships.
28	Death lump sum	Insured benefits on death often include not only the spouse's pension but also a death lump sum, which is a single payment that falls due in the event of death.
29	If no surviving partner's pension falls due	If you are single and therefore no surviving partner's pension falls due, this amount will be issued as a single payment to the surviving family members. Please refer to the order of beneficiaries in the pension fund regulations for further details.
30	Annual orphan's pension	In the event of your death as a parent, your surviving children will receive this maximum benefit per year until they reach the final age as defined in the pension plan.
31	** Lump sum payable at death	The amount of the lump sum payable at death corresponds to the amount on the day of death. Since retirement assets increase on an ongoing basis over the year, the amount stipulated here is the amount as at the end of the year. The amount to be paid out is calculated precisely in the event of death.
32	Possible purchase of additional retirement benefits	You can increase your occupational benefits by paying into your occupational benefits fund, a practice referred to as "purchasing contribution years."
33	Possible purchase of early retirement benefits	The amount you can pay into your account to avoid a benefit reduction if you decide to retire early. Purchasing benefits for early retirement is possible only once the possibilities of purchasing contribution years have been exhausted.
34	Vested benefits	The amount you are eligible for if you withdraw from our pension fund by a defined date. This amount remains part of your individual pension provision.
35	Advance withdrawal for purchase of residential property	This section informs you about the amount you can withdraw in accordance with the "Swiss Federal Law to Encourage the Use of Vested Pension Accruals for Home Ownership."
36	Possible amount	Insured persons can withdraw in advance or pledge their retirement assets, or parts thereof, in order to finance the purchase of owner-occupied residential property. Such a withdrawal needs to be studied carefully. Depending on the type of plan, the withdrawal can reduce your benefits and is taxed.

<b>37</b>	Contributions	The amounts due in the new year if there are no changes to the salary or the pension plan.
38	Savings component	This portion of the total contribution is applied to increase your retirement assets.
39	Your individual monthly contribution	The employer deducts this amount from your salary each month and pays it into your occupational benefits plan.
40	Occupational benefits fund commission	The occupational benefits fund commission (OBC) is the body responsible for managing your occupational benefits provision. It consists of employee and employer representatives of your company.

# You will find more information at myAXA.ch and in the following documents

## Occupational benefits fund regulations

The occupational benefits fund regulations contain the basic principles and general provisions governing employee benefits.

### Occupational benefits plan

The occupational benefits plan is part of the occupational benefits fund regulations and defines the insured benefits. You can request a current copy from your employer as needed.

### Pension fund certificate

The pension fund certificate described on this page is delivered to the employees insured with AXA at the start of each year via the myAXA platform. As well as when there is a change.
